DATASHEET

Ebselen

Product overview

Name	Ebselen
Cat No	HB0270
Biological action	Inhibitor
Purity	>98%
Description	Broad enzyme inhibitor. Inhibits Gq protein signaling.

Images

Biological Data

Biological description

Broad enzyme inhibitor which inhibits PKC, NADPH, NADPH oxidase, NO synthases, 5-lipoxygenase and cyclooxygenase.

It also mimics glutathione peroxidase.

It shows neuroprotective, anti-cancer, antioxidant and anti-inflammatory actions.

It also shows antiviral activity and inhibits the SARS-CoV-2 M^{pro} protease (IC₅₀ = 0.67 μM).

Selectively inhibits Gq protein signaling and enhances differentiation of brown adipocytes.

Solubility & Handling

Storage instructions

Room temperature

Solubility overview

Soluble in DMSO (100 mM)

Important

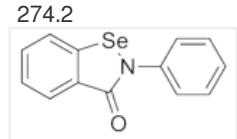

This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.
