DATASHEET

IWP 2

Product overview

Name	IWP 2
Cat No	HB0344
Biological action	Inhibitor
Purity	>98%
Description	Potent Wnt pathway inhibitor and PORCN inhibitor. Suppresses R1 ESC self-renewal. Used in the production of cardiac organoids.

Images

Biological Data

Biological description	Potent Wnt pathway inhibitor ($IC_{50} = 27$ nM) and PORCN inhibitor. It also inhibits Dishevelled-2 (Dvl2- a Wnt-Fz signalling component) and LRP5/6 phosphorylation without inducing axin stability. It blocks phagocytosis and secretion of pro-inflammatory cytokines. Additionally, it suppresses R1 ESC self-renewal and may be used in the production of cardiac organoids.
-------------------------------	--

Solubility & Handling

Storage instructions	+4 °C
Solubility overview	Soluble in DMSO (10mM, gentle warming)
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Chemical name	<i>N</i> -(6-Methyl-2-benzothiazolyl)-2-[(3,4,6,7-tetrahydro-4-oxo-3-phenylthieno[3,2- <i>d</i>]pyrimidin-2-yl)thio]-acetamide
