DATASHEET

Swinholide A

Product overview

Name Swinholide A
Cat No HB4100
Purity >97%

Description Actin filament inhibitor. Disrupts actin cytoskeleton.

Biological Data

Biological description Cell permeable dimeric dilactone macrolide. Cytotoxic compound. Specific actin filament (F-actin)

inhibitor. Disrupts the actin cytoskeleton by sequestering actin dimers and rapidly severing actin filaments (F-actin). Depolymerizes actin filaments (F-actin). Antifungal. Apoptosis inducer. Alterates the actin cytoskeleton of GH4 cells and inhibits insulin-increased prolactin gene transcription.
