DATASHEET

aCSF (Sterile Filtered)

Product overview

Name	aCSF (Sterile Filtered)
Cat No	HB4969
Description	Artificial cerebrospinal fluid (aCSF)
Biological description	<u>Overview</u>

Artificial cerebrospinal fluid (aCSF) is prepared from analytical grade reagents and high purity water. It is microfiltered and sterile.

Uses & applications

It closely matches the electrolyte concentrations of CSF and is frequently used when sampling from brain interstitial fluid. It is regularly used in patch-clamp electrophysiology.

Final Ion Concentrations (in mM): Na 150; K 3.0; Ca 1.4; Mg 0.8; P 1.0; Cl

Solubility & Handling

Storage instructions	Room temperature
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use
