## DATASHEET

Phosphatase Inhibitor Cocktail solution (cell lysates and tissue extract use incl. samples containing detergents)

---

### Product overview

<b>Name</b>	Phosphatase Inhibitor Cocktail solution (cell lysates and tissue extract use incl. samples containing detergents)
<b>Cat No</b>	HB9096
<b>Description</b>	Phosphatase Inhibitor Cocktail solution for use in cell lysates and tissue extracts including samples containing detergents.

---

### Biological Data

#### Biological description

#### Overview

This protease inhibitor cocktail contains a mixture of protease inhibitors with broad specificity for various proteases. It is optimized for use in cell lysates and tissue extracts including samples containing detergents.

Protease inhibitor cocktails protect proteins from degradation by endogenous proteases released during protein extraction and purification.

#### Components and action

The following components are included in this cocktail which target phosphatases including protein tyrosine phosphatases, acid and alkaline phosphatases..

- Imidazole: Alkaline phosphatase inhibitor (200mM)
- Sodium fluoride: acid phosphatase and serine/threonine phosphatase inhibitor (100mM)
- Sodium Molybdate: acid phosphate inhibit (115mM)
- Sodium orthovanadate: protein tyrosine phosphatase/ alkaline phosphatase inhibitor (100mM)
- Sodium tartrate dihydrate: acid phosphatase inhibitor (400mM)

#### Formulation & usage recommendation

The cocktail is supplied as a 1ml solution in water. Dilute 1:100 just prior to use.

---

### Solubility & Handling

#### Storage instructions Solubility overview Important

-20°C

Soluble in Water, DMSO (supplied in 1ml DMSO)

This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.
