# DATASHEET

Recombinant mouse GDNF protein

#### **Product overview**

Name	Recombinant mouse GDNF protein
Cat No	HB6816
Species of origin	mouse
Alternative names	Recombinant Mouse Glial-Derived Neurotrophic Factor, ATF1, ATF2, HFB1-GDNF, GDNF.
Purity	>98%
Description	Mouse GDNF recombinant protein

## **Biological Data**

Application notes The  $ED_{50} = 0.8-0.12 \mu g/ml$  (as determined by the dose-dependent proliferation of C6 cells)

# **Solubility & Handling**

Solubility overview	To make a stock solution, reconstitute in sterile $18M\Omega$ cm water at a concentration > 100µg/ml, which can then be diluted to make a working solution
Handling	<ul> <li>Solutions should be made in sterile deionized water (not less than 100 µg/ml). This solution can then be further diluted with other aqueous solutions.</li> <li>Following reconstitution, solutions may be stored at 4°C and are useable for around 2-7 days and for future use store at -18°C.</li> <li>For long term storage, a carrier protein (0.1% HSA or BSA) should be added to stock solutions. Solutions should be aliquoted into tightly sealed vials for storage at -20°C. Freeze-thaw cycles should be prevented.</li> </ul>
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.
