DATASHEET

Recombinant rat GMF-beta protein

Product overview

Name Recombinant rat GMF-beta protein

Cat No HB8247 Species of origin rat

Alternative names Recombinant Rat Glia Maturation Factor Beta, Glia maturation factor beta, GMFB, GMF-B, GMF-beta,

GMF, C79176, Al851627, D14Ertd630e, 3110001H22Rik, 3110001O16Rik.

Purity >97%

Description Recombinant rat glia maturation factor beta protein

Solubility & Handling

 $\textbf{Solubility overview} \qquad \qquad \text{To make a stock solution, reconstitute in sterile } 18M\Omega \text{cm water at a concentration} > 100 \mu \text{g/ml, which}$

can then be diluted to make a working solution

Solutions should be made in sterile deionized water (not less than 100 μg/ml). This solution can

then be further diluted with other aqueous solutions.

• Following reconstitution, solutions may be stored at 4 °C and are useable for around 2-7 days

and for future use store at -18 °C.

• For long term storage, a carrier protein (0.1% HSA or BSA) should be added to stock solutions.

Solutions should be aliquoted into tightly sealed vials for storage at -20°C. Freeze-thaw cycles should be prevented.

Important This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not

for human or veterinary use

Chemical Data

UniProt ID Q63228 Source E. Coli.

Appearance White lyophilized powder (sterile filtered & freeze-dried)

Formulation Lyophilized from a 0.2µm filtered concentrated (1.0mg/ml) solution in PBS (pH 7.4)
