
DATASHEET

Recombinant human NNT-1 protein

Product overview

Name	Recombinant human NNT-1 protein
Cat No	HB9446
Description	Human recombinant Neurotrophin-1 protein
Biological description	Cardiotrophin-like cytokine (CLC/ NNT-1) that belongs to the IL-6 family of cytokines.
Species of origin	NNT1 is a trophic factor for motor neurons, a stimulator of ACTH release from corticotrophs and an inducer of IgE synthesis and B cell proliferation. human
Alternative names	Neurotrophin-1 Human Recombinant, Cardiotrophin-Like Cytokine Factor 1, Novel Neurotrophin-1 , BSF3, CLC, CRLF1 Associated Cytokine-Like Factor 1, B-Cell Stimulating Factor 3, B-Cell-Stimulating Factor 3, BSF-3, NNT-1, NNT1, Neurotrophin-1/B-Cell Stimulating Factor-3, Cold-Induced Sweating Syndrome 2, B-Cell Stimulatory Factor 3, CISS2, NR6, CLCF1.
Purity	>95%

Biological Data

Application notes	The ED ₅₀ = ≤15ng/ml (as measured in a cell proliferation assay using TF-1 cells transfected with human CNTF-R)
--------------------------	--

Solubility & Handling

Solubility overview	To make a stock solution, reconstitute in sterile 18MΩcm water at a concentration > 0.5mg/ml, which can then be diluted to make a working solution
Handling	<ul style="list-style-type: none">• Solutions should be made in sterile deionized water (not less than 100 µg/ml). This solution can then be further diluted with other aqueous solutions.• Following reconstitution, solutions may be stored at 4 °C and are useable for around 2-7 days and for future use store at -18 °C.• For long term storage, a carrier protein (0.1% HSA or BSA) should be added to stock solutions. Solutions should be aliquoted into tightly sealed vials for storage at -20 °C. Freeze-thaw cycles should be prevented.
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use

Chemical Data

Source	E. Coli.
Appearance	White lyophilized powder (sterile filtered & freeze-dried)
Formulation	Lyophilized from a 0.2µm filtered solution in acetonitrile and TFA
