DATASHEET

MMI 0100

Product overview

Name	MMI 0100
Cat No	HB3813
Biological action	Inducer
Purity	>95%
Description	MAPKAPK2 (MK2) inhibitor. Cell permeable.

Biological Data

Biological description	Cell permeable MAPKAPK2 (MK2) inhibitor which targets the MK2 substrate-binding site. Shown to ameliorate memory deficit induced by A β 1-42 or lipopolysaccharide in novel object and location tasks. Reduces cardiac and pulmonary fibrosis and ameliorates lung inflammation. Also attenuates DSS-induced body weight loss, colon length shortening, and colonic pathological injury in DSS induced models of acute colitis.
-------------------------------	---

Solubility & Handling

Storage instructions	-20 °C
Solubility overview	Soluble in PBS (1 mg/ml), and in DMSO
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Molecular Weight	2283.64
Molecular Formula	C ₉₈ H ₁₇₁ N ₃₇ O ₂₆
CAS Number	1039342-24-9
