DATASHEET

Native lysis buffer (1x) pH 7.0

Product overview

Name	Native lysis buffer (1x) pH 7.0
Cat No	HB4628
Biological description	Ready to use cell lysis and protein solubilization buffer for adherent and suspension cultured mammalian cells. Extracts cytoplasmic, nuclear and membrane proteins. The gentle detergent in this buffer allows solubilization of protein complexes that retain enzymatic activity but may therefore result in less complete extractions when compared to other buffers (e.g RIPA buffers) that use more stringent detergents.
Biological action	Buffer
Description	Ready to use cell lysis and protein solubilization buffer

Solubility & Handling

Storage instructions	Room temperature
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.
