DATASHEET

ML 336 (K2P2.1/ TREK-1 modulator)

Product overview

Name	ML 336 (K2P2.1/ TREK-1 modulator)
Cat No	HB7386
Biological action	Activator
Purity	>99%
Description	Covalent K_{2P}2.1 (TREK-1) modulator. Used with CAT335 as part of the CATKLAMP chemogenetic strategy.

Biological Data

Biological description	K_{2P}2.1 (TREK-1) modulator. Recently used with CAT335 as part of the CATKLAMP chemogenetic strategy which uses the pair of compounds to rapidly and irreversiblly activate engineered TREK subfamily members to allow further probing of K_{2P} function and act as a switch to silence neuronal firing. Selectively and covalently activates engineered versions of different K_{2P} TREK subfamily members when used with CAT335, e.g. K_{2P}2.1 (TREK-1), K_{2P}10.1 (TREK-2), K_{2P}4.1(TRAAK).

Solubility & Handling

Storage instructions	Room temperature
Solubility overview	Soluble in DMSO (100 mM)
Important	This product is for RESEARCH USE ONLY and is not intended for therapeutic or diagnostic use. Not for human or veterinary use.

Chemical Data

Chemical name	N-[(2,4-dichlorophenyl)methyl]-4-(prop-2-enamido)benzamide
Molecular Weight	349.2
Chemical structure	Molecular Formula	$C_{17}H_{14}Cl_2N_2O_2$
CAS Number	1629267-48-6
SMILES	Clc1cc(Cl)ccc1CNC(=O)c1ccc(NC(=O)C=C)cc1
Source	Synthetic
InChi	InChI=1S/C17H14Cl2N2O2/c1-2-16(22)21-14-7-4-11(5-8-14)17(23)20-10-12-3-6-13(18)9-15(12)19/h2-9H,1,10H2,(H,20,23)(H,21,22)
InChiKey	UAHHMJIXIHBXMC-UHFFFAOYSA-N
Licensing details	*Sold under license from the Regents of the University of California*

This product is for in vitro research use only. It is not to be used for commercial purposes. Use of this product to produce products for sale or for diagnostic, therapeutic or drug discovery purposes is prohibited. In order to obtain a license to use this product for commercial purposes, contact The Regents of the University of California. This product or the use of this product is covered by U.S. Patent owned by The Regents of the University of California.
