

Certificate of Analysis

Product Identification

Catalog number HB4022
Compound name Recombinant human beta-NGF (CHO-expressed)
Batch number E1812-1-1
Batch molecular weight 26.5 kDa

Method	QC requirement	QC Result
HPLC Mass spectrum	Reverse Phase HPLC shows >95% purity Mass spec analysis consistent with structure	Meets specification: 95.0% Meets specification
Physical appearance Solubility	White to off-white solid Soluble in aqueous buffer (0.1 mg/ml)	Meets specification: White solid Meets specification
